

## AMBASSADOR DISTRICTS

The Ambassador Training Academy professional learning series was born in 2009 at the request of a school superintendent who heard the founders of Friends of Texas Public Schools speaking at a conference. He invited Leslie and Scott Milder to come teach his staff the importance of stepping up as ambassadors for their students, themselves, their schools, and the profession.

The Milder's and their program facilitators have since trained over 40,000 professional Texas educators across more than 80 school districts. Programs have included back-to-school convocations, new teacher workshops, staff workshops, leadership workshops, paraprofessional workshops, and community sessions.
